Arrow Valley Solar

Consultation Newsletter

September 2026

Arrow Valley Solar Limited (AVS) is bringing forward proposals to deliver a new solar and energy storage project across south Warwickshire and east Worcestershire.

Our proposals would connect around 500 megawatts (MW) of renewable energy into the transmission network, with an onsite 250 MW battery energy storage system holding up to 1000 MWh of electricity, so more power is available when people need it the most.

We are holding a community consultation to hear your views on the proposals. The consultation begins on **Monday 28th September** and will run until **11:59pm on Monday 2nd November 2026.**

During this consultation period, we are presenting our detailed plans for the Scheme and sharing the initial environmental work undertaken to date. We're also holding a series of local public consultation events, plus a webinar, so that you can hear more about the proposals and what they would mean for your area. Further details on the events and how to view the proposals can be found within this newsletter.

Arrow Valley Solar is considered a Nationally Significant Infrastructure Project (NSIP) because of its scale and generating capacity.

This means that rather than being considered through the local planning process, the Secretary of State for Energy Security and Net Zero will make the final decision on whether it goes ahead.

Scan the QR code to find out more about the NSIP process.

The way we produce energy is changing. Electricity demand in the UK is forecast to roughly double between now and 2050 as transport, homes and industry move away from fossil fuels.

To meet this rising need and strengthen our energy security, there is a growing requirement for affordable and reliable energy generation to be developed here in the UK. Arrow Valley Solar will deliver clean energy, reducing our reliance on imported fuels and supporting a more resilient electricity system at home.

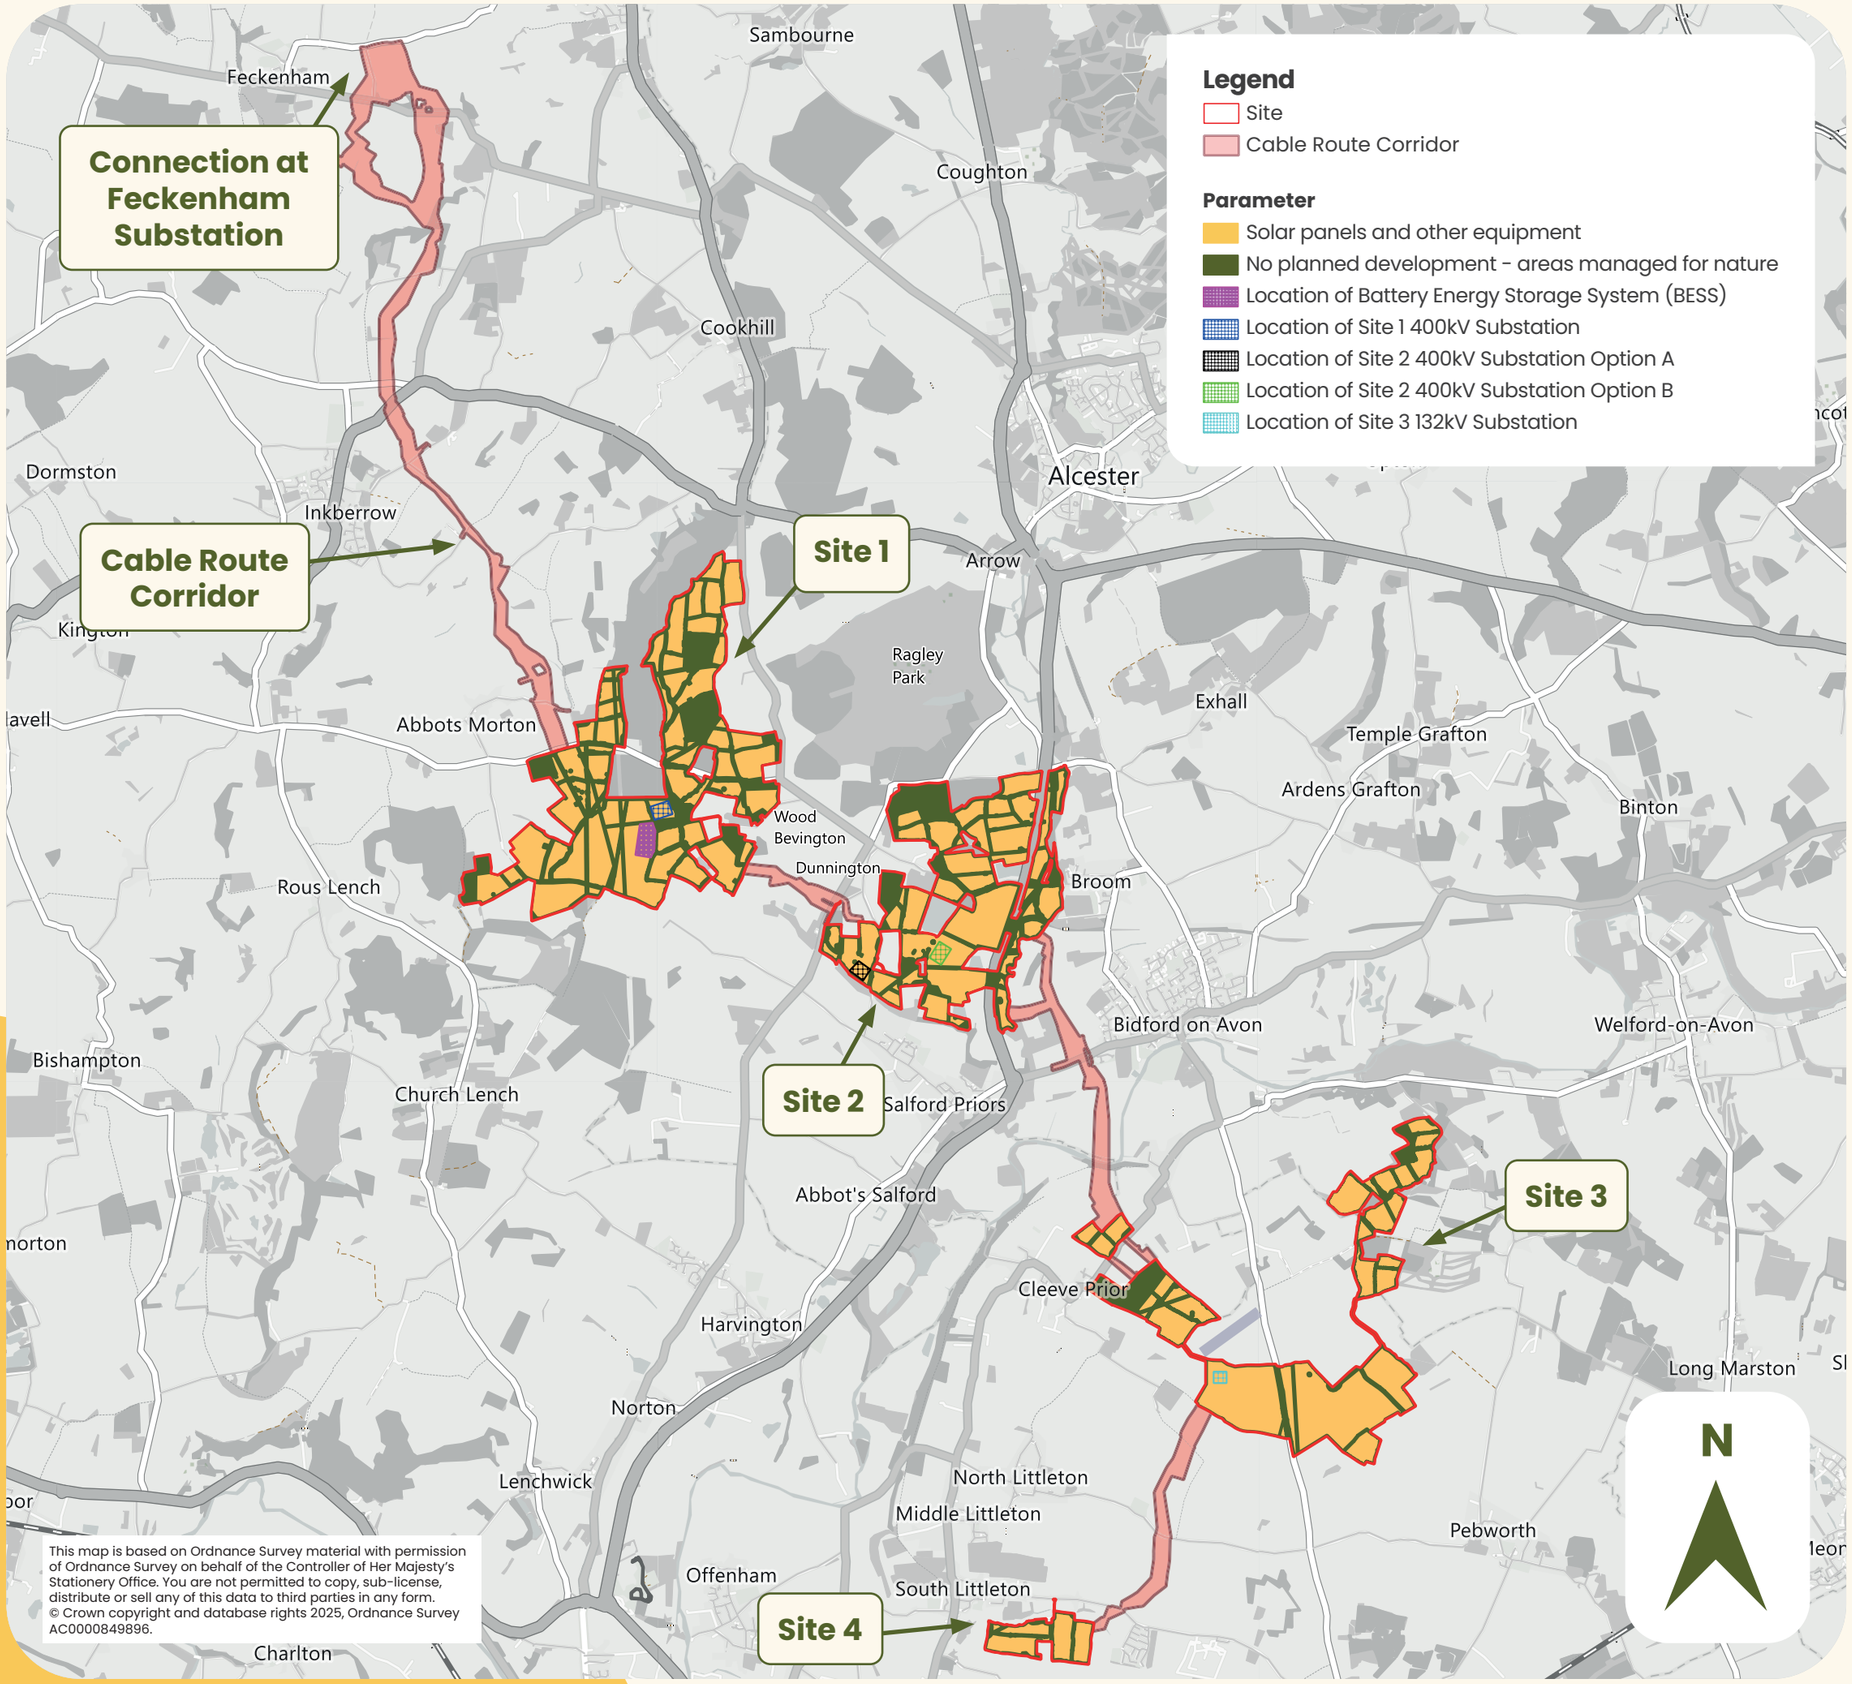
Our proposals

Four solar array sites, capable of generating approximately 500 MW of renewable energy. This is enough to meet the needs of around 235,000 homes – more than all the homes in Stratford-on-Avon, Wychavon and Redditch combined.

A 250 MW battery storage facility capable of holding up to 1000 MWh of electricity, saving up renewable energy and releasing it when people need it most.

A connection into the electricity transmission network at Feckenham Substation, getting electricity moving from where it is generated to where it is needed quickly.

An Arrow Valley Community Benefit Fund, providing funding for local projects and initiatives that help strengthen community life, support local priorities, and leave a lasting legacy for communities nearby.



Get involved

AVS is committed to working with the local community and we look forward to hearing your views on the proposals.

The deadline for providing feedback is 11:59pm on Monday 2nd November.

Find out more.

You can find all the information about our Arrow Valley Solar proposals, including our Interim Environmental Report (IER) on our project website.

The website is also the easiest way to share your feedback with us and register for project updates.

Printed copies of the consultation brochure and feedback form are available at our consultation events and from Alcester Library. Completed feedback forms can be returned free of charge using the Freepost envelopes available at these locations. Please check Alcester Library opening times before visiting.

Autumn 2026
Community consultation

Spring 2027
Submission of development consent order application

2028
Decision made by Secretary of State for Energy Security and Net Zero

2029-2031
Construction of Arrow Valley Solar

2031
Project fully operational*

*Indicative programme, subject to development consent.

Join us at our consultation events

We hope to see you at one of our consultation events to talk to our team, learn more about our proposals and share your thoughts. You can also register for our webinar via the project website.

Event	Date	Time
Cleeve Prior War Memorial Village Hall, Main Street, Cleeve Prior, Evesham, WR11 8LG	Thursday 8th October	1-6pm
Salford Priors Memorial Hall, School Road, Salford Priors, Evesham, WR11 8XD	Saturday 10th October	2-7pm
Broom Village Hall, High Street, Broom, Warwickshire, B50 4HJ	Friday 16th October	2-7pm
Inkberrow Village Hall, Sands Road, Inkberrow, Worcestershire, WR7 4HJ	Saturday 17th October	11am-4pm
Pebworth Village Hall, Chapel Road, Pebworth, Stratford-upon-Avon, CV37 8XJ	Tuesday 20th October	1-6pm
Eric Payne Community Centre, Jubilee Fields, St Faith's Road, Alcester, B49 6AG	Friday 23rd October	2-7pm
Online Webinar	Tuesday 27th October	6-7pm

Landowners within the proposed Cable Route Corridor have been invited to dedicated landowner events. For questions or help booking, contact Dalcour Maclaren at **arrowvalleysolar@dalcourmaclaren.com** or on **0333 188 5374**.

If you cannot access information online, or require printed or accessible materials, please contact the project team using the details below.
